

# CRYPTANTHUS

Grow your reptile, amphibian, or invertebrate jungle with ReptiFauna™ tropical plants.

These plants are perfect for naturally enhancing your animal habitat and are easy to care for.

**Origin:** South America

**Care Level:** Beginner

**Light:** Partially Shaded

**Humidity:** Moderate 30-70%

**Environment:** Tropical

**Placement:** Foreground

**Water Frequency:** Weekly

**Growth Rate:** Slow

## TIPS:

- Colors intensify with brighter lighting.
- Too much light can cause brown spotting.
- Prefer a moderately damp environment. Water less frequently if substrate is still wet after one week.
- Tolerant of short periods of drought.

## TO GET STARTED:

- Prepare the substrate by digging a small two inch hole to accommodate the plant
- Remove the plant from the pot being careful to not damage the roots
- Gently remove as much substrate from the plant and discard in the substrate in the trash
- Lightly rinse the plant under de-chlorinated room temperature, or distilled water
- Place the plant in the hole in the substrate
- Fill in the open areas in the hole with substrate until the it covers just up to the base of the plant
- Gently smooth out the substrate
- Water according to care directions below, always using room temperature water
