

STRING OF TURTLES

Grow your reptile, amphibian, or invertebrate jungle with ReptiFauna™ tropical plants.

These plants are perfect for naturally enhancing your animal habitat and are easy to care for.

Origin: Brazil

Care Level: Intermediate

Light: Full Light

Humidity: Humid 70-100%

Environment: Tropical

Placement: Midground

Water Frequency: Every 2 weeks

Growth Rate: Slow

HUMIDITY:

TIPS:

- The plant will stop producing new growth if it is exposed to too much bright light
- Let the soil completely dry out between watering
- String of Turtles loves consistent temperatures of 68 to 75 degrees

TO GET STARTED:

- Prepare the substrate by digging a small two inch hole to accommodate the plant
- Remove the plant from the pot being careful to not damage the roots
- Gently remove as much substrate from the plant and discard the substrate in the trash
- Lightly rinse the plant under de-chlorinated room temperature, or distilled water
- Place the plant in the hole in the substrate
- Fill in the open areas in the hole with substrate until it covers just up to the base of the plant
- Gently smooth out the substrate
- Water according to care directions above, always using room temperature water
